

INTERMEDIATES & SYNTHESIS REFERENCES / Q4 2026

Intermediates portfolio

640 catalogue entries across 178 target groups, covering 639 distinct CAS numbers. One entry requires CAS confirmation. Entries corresponding to APIs in the main portfolio are labelled API reference.

Target names identify synthesis projects and do not establish availability of the finished API. Production stages are supplier-listed. A dash indicates information not supplied or not verified. Regulatory documentation and manufacturing-site GMP status require product-specific confirmation.

Oncology

Target API / project	CAS No.	Production stage	Entry type	Details
Carfilzomib	247068-82-2	Commercial	Intermediate	-
Carfilzomib	247068-85-5	Commercial	Intermediate	-
Carfilzomib	868539-98-4	Commercial	Intermediate	-
Carfilzomib	868539-99-5	Commercial	Intermediate	-
